DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bracken 5,429,126 in view of Dyrud et al. 5,819,731.
3. As to claim 1, Bracken teaches an oxygen mask (col. 1, lines 7-8, Bracken) having an improved means for being secured over the nose and mouth of a patient, the improvement comprising: a pair of elastic bands (see fig. 1, Bracken), both ends of each pair affixed to each of both sides of the mask (see fig. 1, Bracken). It should be noted that Bracken fails to teach the bands extendible to loop over and around each ear of the patient. However, Dyrud et al. does teach the bands extendible to loop over and around each ear of the patient (see fig. 1, Dyrud). Therefore, it would have been obvious to one of ordinary skill in the art to modify the mask of Bracken to include the bands of Dyrud et al. in order to keep the mask from entangling in the wearer's hair on the back of their head.
4. As to claim 2, Bracken/Dyrud teaches the oxygen mask according to claim 1, wherein the elastic bands are affixed at four separate points on the mask (see fig. 1, Dyrud).

Art Unit: 3761

5. As to claim 3, Bracken/Dyrud teaches the oxygen mask of claim 1 wherein the elastic bands are affixed at two separate points on the mask (see fig. 1, Bracken).

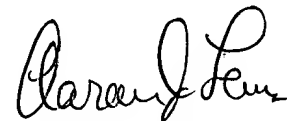

6. As to claim 4, Bracken/Dyrud teaches the oxygen mask of claim 1 wherein the elastic bands are adjustable (col. 2, lines 2-3, Bracken).
